Essential Elements to Remote Learning

- More PD on how to utilize online resources
- Making sure students aren't overwhelmed with online assignments
- A better way to stream line applications to use for everyone in the school
- PD for parents/students of how to use the technology
- Make sure we can adjust stuff for our Adapted population
- Make sure we include a welcome video or expectations for the beginning of the year
- Make sure to make it clear for how to get a hold of you when a parent or students has a problem
- How do we reach those students who don't have devices
- How to work on two different operating systems (K-2 getting iPad, and 3-5 getting laptops)
- Team building activities digitally
- Adding choice and flexibility to what they can do
- How to balance being on a screen all day vs getting the education portion of teaching
- How do we assess and grade without taking the wind out of sails
- How do we motivate students to connect to our lesson
- Possible PE bags for students at home to use
    - jump rope, scarf, poly spot, small cone and ball
- How long should we make our online lessons?
