PARTNER PROBLEM SOLVERS

P: 1-800-233-5484 F: 1-877-800-5973 www.palossports.com

grade level: K-5

materials/equipment: (based on class of 30)

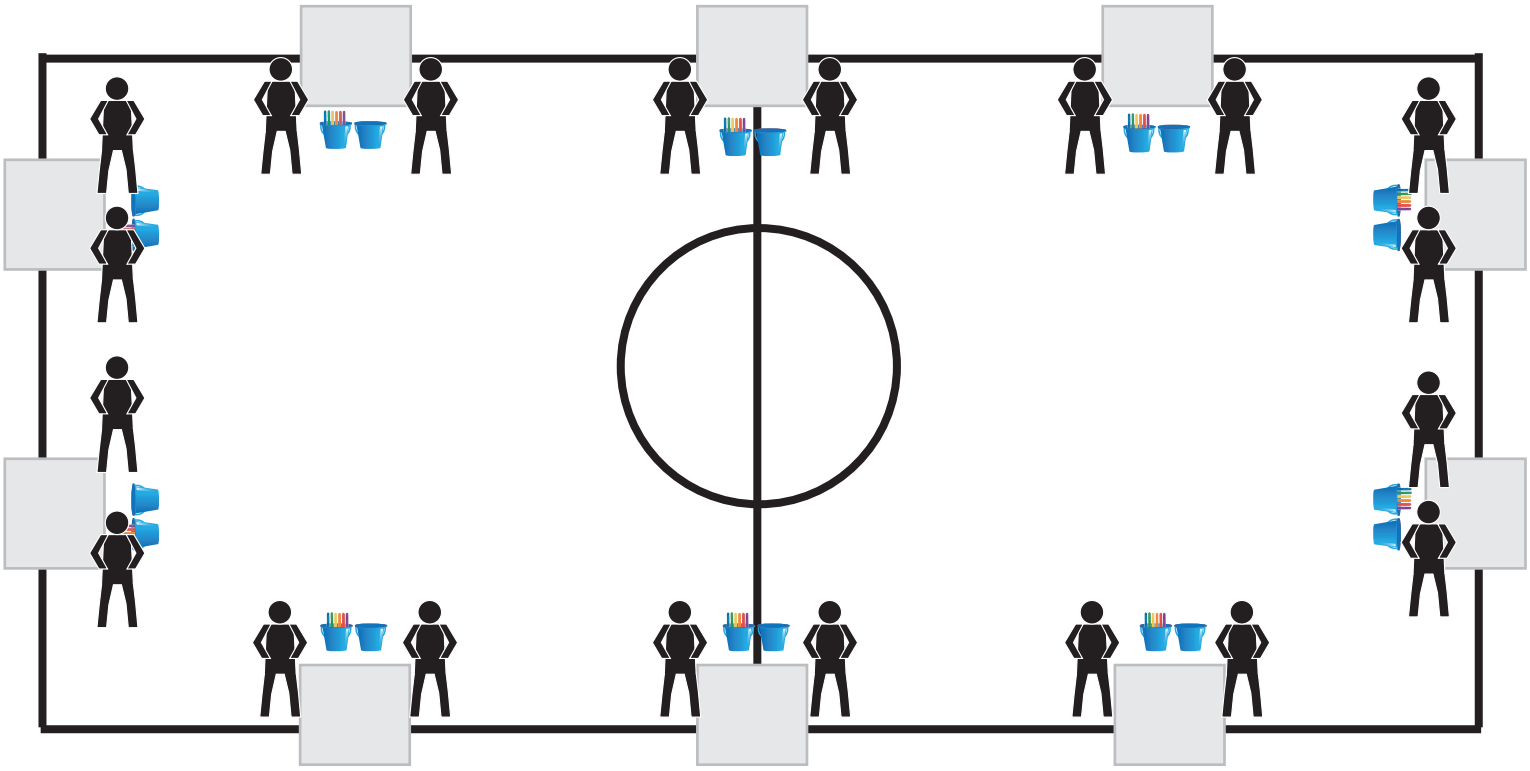
- Popsicle sticks with math problems ***(#16837)***
- Wall posters with math problem totals and exercises (or equipment)
- Buckets ***(#15609)*** with popsicle sticks problems under each poster, one to deposit and one to take from
- Scarves ***(#15219)***
- Grabby Balls ***(#10136)***
- Hot Spots ***(#21118)***
- Neon Foam Dodgeballs ***(#10507)***

set-up #1 (for full class)

Put the wall posters and activity posters around the perimeter of the gym on the walls with 2 cups or buckets under each one.

how to play:

Each student or partner duo starts at a poster. They choose a stick out of the cup. They read the equation, run to the poster with the correct answer, deposit it into the bucket, do the exercise or activity, and take a new stick out of the other bucket. They repeat this pattern until the activity ends.



poster ideas:

Exercise pictures via hot spots
5 canon shots
Stack 6 ice cream scoops
Catch a grabby ball with your partner
Juggle scarves for one minute

variation:

Make popsicle sticks and corresponding wall card with multiplication or subtraction equations.
