# Turkey Concentration Game #1 Diagram and Directions

Teams of 3 standing at hoop. First student in line stands in the hoop. On GO signal, walk out to pick up one card, return to hoop and place it side up. Give a high five to the next student and then go to the end of the line. Keep repeating until all cards are picked up. Count the number of matches inside of each hoop. Turkey cards without a match do not count for points. Play game again changing the way to travel—gallop, skip, side-slide, etc. *Gobble*

# Notes from Patty:

Thank you for downloading my “Turkey Concentration” game! For the complete unit (two games, matching turkey cards, and cards cover), please check out my TPT store. I created this activity to integrate a matching activity while increasing the student’s heart rate to focus learning more intently. This matching activity increases everyone’s heart rate for a little MVPA (moderate-to-vigorous physical activity) during the fall season!

Check out additional lessons/units I have created at my TPT store. I have a variety of units/lessons/activities that promotes physical activity, motor development and content integration Pre-K through 5th grades.

If you have any suggestions, edits or questions, please email me at [PattyKimbrellMEd@gmail.com](mailto:PattyKimbrellMEd@gmail.com), I would be thrilled to hear from you.

Have a fun and fit day!  
Patty
